

Why angel communication?

Daily Lesson from the Angels

So why listen to us? What can you possibly gain by surrendering your will to a power that isn't always tangible and often defies logic?

Simple, dear angel friend! We **are** Love and come directly from the Source of all Being which some of you refer to as God. Our path to your consciousness is through your soul. As you invite us more into your awareness, you connect more deeply with your soul and bring with that experience all that we can offer you from an unlimited Source of Goodness.

You also discover your life purpose, because your soul carries with it the knowledge of why you are here...why this body...why this place...why this time. Whatever the venue, the answer will always lie in service.

Angel Card Exercise

Just as you did yesterday, pick one angel oracle card and journal about what you think it might mean.

What could possibly be the message contained within this beautiful card?...the message that's just for you?

Journaling with the Angels

Today's letter to you is from your Angel of Service. Please write the following on a new page in your journal and answer the questions by simply opening your heart and allowing the messages to flow through you.

Dear One,

I am with you to help you see how you can help others in service to your own divinity.

There is a beautiful line in a prayer entitled the Servant Prayer, "When you are hungry, find someone to feed." Nothing could more truthful. When you are experiencing challenges, find some way to serve and bring happiness to others.

Today, I would like to share with you that your highest path of service is to _____.

Your best next step is _____.

By doing this, you will _____.

In service to you, always!

Love, Your Angel of Service

Angels in Your Daily Life

Contemplate the advice from your Angel of Service and do your breathing exercise.

Pause for a moment and close your eyes. Bring your focus to your breath - your inhale of inspiration and your exhale of release.

Open your heart and soul to receive the love and guidance of your angels. Hold this intention as you continue to breathe deeply for at least 20 breathing cycles. Remember, you can count to five 4 times if that's easier for you than counting to 20.

Let the peace of the angels enter you on every level of being.
